

## **Domestic Bliss Damp Dusting & Outdoor Checklist**

- Cobweb each room as you move through it and always wipe over your bedside tables as you go to each bedroom
- check for Mirror robes for fingermarks and spot clean as you go
- wipe over all furniture and with your cob-webber give the fans a quick brush over as you go
- if you have any horizontal blinds in the room brush these down with your dustpan brush
- in the lounge room take all the cushions off the lounges so that we can vacuum underneath
- wipe over tables wipe over furniture
- wipe over desks
- wipe over lights
- carefully wipe over the TV
- wipe over power points and cobwebs throughout
- in the laundry wipe over the machines and wipe over any benches cobweb again
- if you have extra time also look at things like skirting boards, lampshades, fans, ovens
- rotation cleaning if you have spare time I would expect you to wipe windowsills as a priority
- vacuum out your tracks as you are vacuuming
- brush down blinds to keep the dust at a minimum cobweb every room as you go looking for fingermarks on windows on sliding doors
- Covid hotspots - use medic and think about where fingers would touch things
- Use the magic time between finishing damp dusting and starting floor to do rotation cleaning - walls, doors, windows, lights, fans etc

### **Outdoor areas**

- Try to at least sweep these outdoor areas but wet hosing is preferred but it might take too long (Or make too much mess) but at least sweep and wipe over tables and chairs
- many homes have a full set of windows that are easily hosed from the outside this gets all the dust out of the screens and into the tracks and then you can work on them one by one
